PROFESSIONAL SUMMARY

Results-driven AI and Data Science undergraduate with proven experience in designing and deploying machine learning solutions for healthcare, document analysis, and smart IoT systems. Adept at Python programming, predictive modeling, and data visualization through hands-on internships and impactful academic projects. Demonstrated expertise in cloud platforms, NLP, and state-of-the-art AI frameworks, complemented by industry-recognized certifications. Track record of collaborating with diverse teams, optimizing data-driven processes, and delivering innovative solutions to real-world challenges. Passionate about leveraging technical knowledge and analytical skills to drive business value and advance cutting-edge technology initiatives.

EDUCATION

R.M.K. College of Engineering and Technology, Tamil Nadu Bachelor of Technology in Artificial Intelligence and Data Science CGPA: 7.71/10	2023 – 2026
Sri Durgadevi Polytechnic College, Tamil Nadu Diploma in Electrical and Electronics Engineering Percentage: 97%	2020 – 2023
Netaji Pilot English Medium High School, Andhra Pradesh Secondary School Certificate Percentage: 99.83%	2020

PROJECTS

Healthcare Disease Prediction and Patient Management System

- Developed an AI-powered healthcare system integrating XGBoost for disease prediction and Gemini API for AI-generated diagnostic summaries, with secure user authentication, MongoDB backend, and Streamlit UI.
- Implemented real-time PDF report generation with automated email delivery and follow-up reminders, enhancing patient care management and outreach effectiveness.

RAG-based Document Query Chatbot using FAISS and LLMs

- Built an interactive Retrieval-Augmented Generation (RAG) chatbot using LangChain, FAISS, and Groq LLM models, supporting PDF/text upload and real-time semantic search with MiniLM embeddings for document-aware question answering.
- Created custom pipelines for document chunking, vector indexing, and query-driven retrieval; deployed Streamlit UI using Groq-hosted LLaMA3 and Mixtral for context-rich responses.

IoT-based Smart Street Light Monitoring and Fault Detection System

- Developed an IoT-enabled smart streetlight monitoring system using sensors for real-time detection of faults and outages, automating notifications to maintenance teams.
- Implemented automated energy optimization based on environmental conditions to improve efficiency, reduce manual oversight, and promote sustainable urban infrastructure.

TECHNICAL SKILLS

- Programming:** Python, SQL
- Machine Learning:** Scikit-learn, XGBoost, predictive analytics
- Data Science:** Data analysis, statistical modelling, data visualization
- Data Visualization:** Power BI, Excel, Matplotlib
- Natural Language Processing:** NLP techniques, LLMs
- Cloud & Databases:** AWS Fundamentals, Oracle Cloud
- Digital Tools:** Canva, Adobe Express, Photoshop Lightroom, Google Suite

CERTIFICATIONS

- **Python and SQL for Data Science**, Scaler (July 2025)
- **Introduction to Data Analysis using Microsoft Excel**, Coursera (July 2025)
- **Python for Data Science & Machine Learning**, Udemy (June 2025)
- **Python for OOP: The A-to-Z OOP Python Programming Course**, Udemy (June 2025)
- **Mastering AI on AWS: Training AWS Certified AI-Practitioner**, Udemy (April 2025)
- **Oracle AI Vector Search Certified Professional**, Oracle University (April 2025)
- **Oracle Cloud Infrastructure 2024 Data Certified Foundations Associate**, Oracle University (March 2025)
- **Introduction to Master Data Management**, Infosys (February 2025)
- **Data Visualization Essentials**, Infosys (August 2024)
- **C Programming Bootcamp – The Complete C Language Course**, Udemy (August 2023)

INTERNSHIP EXPERIENCE

Data Science Intern

May 2025 – June 2025

AdZis Software Private Ltd, Thiruvananthapuram, Kerala.

- Applied data analysis, cleaning, and feature engineering to support AI-driven product development for e-commerce and content automation.
- Collaborated with technical teams to implement data science solutions contributing to real-world, industry-relevant projects in a fast-paced startup environment.

Data Analyst Intern

April 2025 – May 2025

Mithra Construction Equipment Company, Hyderabad, Telangana

April 2025 – May 2025

- Conducted in-depth data analysis and created visualizations for critical business areas such as sales and revenue trends, uncovering actionable insights.
- Utilized analytical skills and modern data tools to support informed decision-making and improve operational efficiency.

Marketing Intern

October 2024 – January 2025

IIT Madras — Shaastra 2025

- Coordinated project tasks to ensure adherence to engineering standards and regulations.
- Conducted comprehensive project analyses, identifying and rectifying discrepancies in engineering designs.
- Drove nationwide event promotion and digital outreach contributing to record attendance of over 70,000 participants at India's largest student-run technical festival.

ACHIEVEMENTS

- Successfully contributed as Marketing Intern for Shaastra 2025 at IIT Madras, driving nationwide event promotion and digital outreach, leading to record participation of over 70,000 attendees.
- Actively engaged in technical and non-technical extracurricular activities, winning multiple awards including 1st place in college photography contests and 2nd place in a poster-making competition.

EXTRACURRICULAR ACTIVITIES

- Active Member, College Photography Club: Participated in club activities and competitions.
- Designer for multiple national-level seminars and academic events, creating invitations and posters to support branding and event promotion.

LANGUAGES

- English (Fluent)
- Telugu (Native)
- Hindi (Fluent)
- Tamil (Fluent)
